BERMAQ®
ACRYLIC POLISHING & CNC MACHINES

AMT

Quality and versatility. All in 1.

Tilting tabletop machine capable of achieving high quality finishes on both straight and bevelled parts. It is possible to achieve both finishes with one machine. All in 1.

Allows up to 60º of inclination (manually adjustable). Handy, easy to use and versatile. Ideal for small pieces.

Tool sharpening service in 24h

WORKS WITH TOOLS THAT ARE 100% ORIGINAL BERMAQ

Characteristics:

Usable length: 700 mm
Max. thickness: 35 mm (straight) / 20 mm (45º bevel)
Max. cutting depth: 1,4 mm
Milling motor speed: 7.000 to 12.000 rpm
Feed speed: up to 3 m/min
Workpiece clamping: clamp
Min/Max inclination: -3º to +60º.
Milling angles: 15º, 22.5º, 30º, 45º and 60º.
Power supply: 220 V I PH // 50Hz/60Hz
Outer dimensions of the machine: 720 x 430 x 250 mm
Weight: 90 kg
CE safety regulations
Automatic feeding by means of a clamp

High quality straight and bevelled finishes can be achieved on a wide range of materials. All in one machine.
